

Aaron N. Fields-Cypress

UI/UX Designer / Developer

Innovative and collaborative Designer & Front-End Engineer with 10+ years of experience creating user-focused digital products. U.S. Air Force veteran with strong communication skills and a team-first attitude. Experienced in navigating ambiguous requirements and turning them into clear, actionable solutions. Skilled in Figma, HTML, CSS/SCSS, Angular, and TypeScript.

Creative Experience

Priority Technology Holdings | Product Designer (Sep 2022 - June 2025)

Worked with ambiguous requirements to support B2B integrations and R&D initiatives. Created reference designs by configuring variable fonts, color ramps, and style tokens to help the design team quickly generate documents for product and engineering.

Pinnacol Assurance | Sr. Product Designer (Aug 2021 - Aug 2022)

Partnered with product to coordinate and conduct user testing with internal and external users, identifying usability gaps and improvement opportunities. Analyzed user behavior using FullStory and Pendo to identify drop-offs, informing design improvements to streamline user flows.

ICU Medical | Senior UI/UX Designer, Senior Engineer (Sep 2016 - Aug 2021)

Lead designer for a cloud application enabling clinicians to standardize medication libraries to be used across multiple healthcare systems. Contributed to requirements planning, auditing, and human factors testing in an FDA-regulated environment.

Implemented maintainable, scalable code following best practices, including unit and component testing, and collaborated with cross-functional teams to debug medical device data integrations across applications.

IDEA Health & Fitness | Digital Designer (Sep 2015 - Sep 2016)

Designed and developed responsive, cross-platform compatible landing pages, emails, newsletters, and marketing materials for fitness conferences partners, and services.
